Summary

Full Stack Developer with **4+ years of hands-on experience** in designing, developing, and maintaining **scalable web applications** using **C #, ASP.NET Core, Web API, Angular and Entity Framework Core**. Proficient in building **RESTful services**, integrating frontend and backend systems, and working with **SQL Server**. Strong understanding of **Agile practices**, code quality, and production issue resolution.

Technical Skills

Languages: C Sharp, Java, Python HTML/CSS, JavaScript, Typescript, SQL

Developer Tools: VS Code, Visual Studio, Microsoft Azure, Azure DevOps, SQL Server Management Studio

Technologies/Frameworks: .NET Core, ASP.NET Web API, Entity Framework Core, Angular SQL Server, JWT Authentication, Git, IIS, Swagger (Open AI) Agile, SOLID Principles, GitHub, NUnit, Node js, React js

Cloud & Deployment: Microsoft Azure (Azure App Services, Azure API Management, Azure Functions), Docker (containerization fundamentals), Kubernetes (basic awareness)

Experience

Tata Consultancy Services

December 2021 – Present

Full Stack Developer

Noida, U.P

- Designed, developed, and maintained **5+ end-to-end web applications/modules** using **ASP.NET Core, Web API, Angular, and Entity Framework Core**.
- Built and optimized **25+ RESTful APIs**, ensuring secure and efficient data exchange between frontend and backend systems.
- Developed **reusable Angular components and services**, reducing UI development effort by **30–40%** across multiple features. .
- Implemented database-driven functionalities using **SQL Server and Entity Framework**, optimizing queries and improving API response time by **20–25%**.
- Delivered **100% of assigned user stories** within sprint timelines by closely following **Agile/Scrum practices**.
- Actively participated in **sprint planning, daily stand-ups, reviews, and retrospectives** across **20+ sprints**.
- Collaborated with cross-functional teams (BAs, QA, and developers) to analyze requirements and translate them into **scalable technical solutions**.
- Followed **clean code principles, SOLID design patterns**, and best practices to improve code quality and maintainability.
- Used **Azure DevOps Azure Repos (Git)** for branch management, pull requests, code reviews, and release coordination.
- Documented APIs using **Swagger (OpenAPI)** to improve clarity and collaboration with frontend and integration teams.

Projects

- **Food Ordering Web Application**
 - Designed and developed a food ordering web application with user authentication, restaurant listings, menu browsing, cart management, and order placement.
- **Personal Portfolio Web Application**
 - Designed and developed a personal portfolio web application to showcase projects and skills.

Achievements

- Received “On-the-Spot Award” for quick turnaround and effective resolution of critical issues.
- Awarded “Star of the Month” for consistent performance, ownership, and delivery excellence.
- Successfully delivered 100% of assigned user stories across multiple sprints within committed timelines.

Education

AKTU University — Mathura , U.P

Bachelor of Technology in Computer Science (C.G.P.A: 8.4)

August 2017 – August 2021

Mathura, U.P

CBSE Board — Mathura , U.P

Senior Secondary (Class XII) (Percentage: 78.9%)

April 2016 – March 2017
